

ACCESSORIES

Tash Switch \$65

This is a sensitive switch for those people with very limited hand use. It has to be plugged into an E.C.U. transmitter (B) below.

(B) E.C.U. Transmitter \$65

This transmitter has a 1/8" mini-phone jack on the side surface. Also includes a 1/8" mini phone plug with 30" of cable. This kit is used to allow activation by E.C.U. and custom switches. Momentary contact closure required for activation. Size 3.25" x 1.25" x 0.5".

(C) Keychain Transmitter \$45

This transmitter is for use by individuals who have full hand use. Small size allows storage in purse or chair side pouch. Size 2.5" x 1.375" x 0.5"

(D) Standard Transmitter \$45

This transmitter may be mounted below the wheelchair armrest or a side panel. Size: 3.25" x 1.25" x 0.5"

(E) Keyless Entry Pad \$100

Wireless keypad for mounting on outside of door. Stops dependence on keys for care providers. Allows them to enter by pushing a 4-digit combination code which can be changed easily when care provider is no longer a member of the household staff. Size: 7" x 2.5" x 1.25"

(F) Wireless Wall Touch Pad \$100

This transmitter is for mounting on a wall and can be used for residential settings. It can also be mounted on a wall next to a bed to remotely allow others to enter a residence. Size: 3.5" x 2.375" x 1"

(FL) Large Wireless Wall Push Pad \$175 Each

This push pad is larger (5" sq.) and more rugged. It is designed for more abusive environments and is very tamper-proof. It has a thick metal push plate, with a handicapped logo and says "push to open." Size: 5" sq. x 2.125, plate is 4.5" sq.

(G) X-10 Interface \$100

A plug-in module that allows activation of the Open Sesame Door System operator by means of an X-10 compatible environmental controls such as voice activation controls, etc. Transmitter type "D" is attached. Size: 3.5" x 3 x 1.5"

(H) 2-Button Transmitter \$55

This transmitter can be used with two doors, one button for each door. Size: 3.25" x 1.25" x 0.5"

(J) 4-Button Transmitter \$60

This transmitter is used in application where 4 buttons are required. Size: 3.25" x 1.25" x 0.5"
